

Flexshade Hexagonal Cantilever

Architecturally Designed & Built To Last

The Flexshade Hexagonal Cantilever is a tension membrane side post umbrella engineered with structural integrity front of mind. The canopy has a hexagonal shape which gives it a round appearance similar to a traditional umbrella. Designed and wind rated for the even toughest conditions providing a lifetime of low maintenance, these permanent structures are custom made when you order.

Highlights

- > Certified engineered non retractable design
- > Tensioned PVC fully welded membranes
- > Zinc & powder coated steel frames
- > Marine grade stainless cables & fittings
- > Engineered for winds up to 160km/h
- > Fire rated PVC with PVDF top finish
