

# FlexshadeHypar

Architecturally Designed Shade Structure

The Hypar offers a durable, contemporary alternative to traditional shade sails. The unique design features a twisted tension membrane with overhead support structure. Modules can be linked together in a variety of plan layouts for optimal shade coverage. These engineered structures are custom made and when you order.

## Highlights

- > Certified engineered non retractable design
- > Tensioned PVC fully welded membranes
- > Zinc & powder coated steel frames
- > Marine grade stainless cables & fittings
- > Engineered for winds up to 160km/h
- > Fire rated PVC with PVDF top finish
