

Flexshade**Lotus**

Architecturally Designed Conical Umbrella

An inverted, hexagonal conical module that gives the appearance of an upside down umbrella. Can be grouped together in a beehive-like pattern for stunning architectural effect. The design incorporates internal drainage so there are no external drip edges. Wind rated for even the toughest conditions the Flexshade Lotus is custom made when you order.

Highlights

- > Certified engineered non retractable design
- > Tensioned PVC fully welded membranes
- > Zinc & powder coated steel frames
- > Marine grade stainless cables & fittings
- > Engineered for winds up to 160km/h
