Features

ShadowGlide™
Brilliant engineering and a clever collaboration of working parts allow the Shadowspec Serenity™ to open in one smooth motion. Use as little as 1 finger to deploy your umbrella in 3 seconds.

ShadowLock™
The integrated wind-protection and umbrella rotation system allows for all-day protection from the elements and 360-degree rotation of the umbrellas.

ShadowLift™
The gas-piston assisted lift allows for ease of use and removes the need for internal componentry that can break and ruin your day in the sun.

ShadowHub
The central hub features a built-in LED light that's easily controlled with an optional smart battery. Perfect for evening enjoyment of the outdoors.
